Summary

Full Stack developer, specialising in front end technologies and proficient in full stack development. Skilled in designing and implementing innovative solutions. Thrives in fast-paced, startup-like environments, leading and mentoring development teams and collaborating with product teams in agile settings.

Skills Highlight

HTML, CSS, JavaScript, Typescript, React, State Management, NodeJS, Express, MongoDB, Jest, AWS and Git.

Languages

English - mother tongue | Hebrew - fluent | Finnish - fluent

Professional Experience

Full Stack Developer (Tech Lead Role)

Makes | 2021 - Present

Link to app: <https://www.makesapp.co>

Makes is a mobile-first web app aimed at transforming the learning experience for kids aged 14 - 18 by gamifying the process, fostering lifelong learning.

- Developed the full stack app from scratch using React, Context, Redux, CSS animations, React Testing Library, NodeJS, Express, MongoDB, Jest and AWS services such as Elastic Beanstalk, Amplify, S3, AWS secrets and more.
- Programmed core features and functionalities. Designed the app's architecture, style guidelines and design patterns.
- Implemented technological solutions to address complex problems.
- Mentored a team of 3 developers through knowledge sharing, code reviews and promoting best practices. Collaborated closely with the product team to achieve goals in an agile environment.

Full Stack Developer and Educator (Promoted)

Appleseeds Academy | 2019 - 2021

- Led a 6-month bootcamp, actively coding alongside students in HTML, CSS, JavaScript, React, NodeJS, Express and MongoDB. Dedicated the majority of the time to hands-on coding, providing real-time guidance and collaborating on coding projects.
- Developed a comprehensive bootcamp curriculum with a strong focus on coding exercises and projects. Personally coded and implemented examples to demonstrate coding best practices and foster practical applications of full stack development principles.
- Conducted interactive coding sessions, engaging students in live coding exercises and problem solving scenarios. Facilitate code reviews, offering detailed feedback and tailored coding suggestions to enhance students coding skills and understanding.
- Fostered a highly immersive coding learning environment, devoting significant time to guide students through hands-on coding experiences. Provided personalised coding assistance and mentorship, actively supporting their growth and proficiency in coding.

Teaching Assistant

Appleseeds Academy | 2018 - 2019

- Offered coding support to the head trainer, guiding participants hands on during the bootcamp.
- Facilitated interactive coding exercises to enhance web development understanding.
- Promoted an engaging coding environment, fostering collaboration and growth.

Education

FullStack Bootcamp

Le Wagon | 2018

An intensive 12 week bootcamp on learning to become a full stack developer.

Tech Stack: Ruby, Ruby On Rails, SQL, PostgreSQL, HTML, CSS, Javascript, Bootstrap
